In the words of the immensely talented and deeply troubled Chet Baker, "Let's get lost". Who knows what we may find? Explore something unknown or just warm yourself in the glow of a familiar flame. If you have made enough decisions today, we will gladly take the wheel while you recline.

One more way to do things here: Think you may have a bottle in you? Sitting with a bunch of like minded drinking buddies? Grab anything from the shelves in the wine shop and we'll pop it open for a \$10 corkage fee. No corkage for bottles over \$50.
